May 25, 2005

Dear Sir:

In response to the Decision on Petition Under 37 C.F.R. § 1.47(a), this is a Renewed Petition Under 37 C.F.R. § 1.47(a) to accept signature of the Declaration by joint inventors on behalf of Mitchell A. Solis, a non-signing joint inventor who cannot be found or reached after diligent effort. No fee is believed to be due, the fee required under 37 C.F.R. § 1.17(h) having previously been submitted. This filing is believed to be timely. If any extension of time is required, please consider this a request therefor. The Commissioner is authorized to charge any additional fees due or credit any overpayment to Deposit Account 50-1513.

The previous Petition dated April 1, 2005 is incorporated herein by reference, and reconsideration of the merits is requested. In the alternative, please consider this filing to be a new Petition, to be decided on the basis of the submissions enclosed herewith.

The Decision on Petition indicates on page 3 that petitioner has not provided a statement of the last known address of the missing inventor. The requisite statement was, however, included on page 2 of the previous Petition. The Decision on Petition also indicates that petitioner has provided a defective executed "composite" declaration. No authority is cited supporting the requirement of separate individual complete sets of declaration, and undersigned practitioner is unaware of any such requirement. Nevertheless, the matter is believed to be moot, as separate individual complete sets of declarations are submitted herewith.

A Declaration signed by each available joint inventor is enclosed, with the signature line for the non-signing inventor left blank, and is to be treated as having been signed by the available joint inventors on behalf of the non-signing inventor. MPEP §409.03(a)(A).

The last known address for the non-signing joint inventor is:

Mitchell A. Solis
1975 Lexington Lane
Cumming, Georgia 30004

The following statement and attachments provide proof of the pertinent facts supporting this Petition:

- (1) On December 22, 2004, the undersigned, acting as counsel for the assignee of this application, forwarded a copy of the application to the non-signing joint inventor, Mitchell A. Solis, along with an inventors' declaration for signature by Mr. Solis. A copy of the correspondence forwarding these materials, along with tracking information from FedEx regarding delivery of the correspondence is attached as Attachment 1 hereto.
- (2) In addition to the written communication, our office has attempted on numerous occasions to contact Mr. Solis by telephone, leaving numerous voicemails requesting a call back. These calls to Mr. Solis have not been returned.

(3) To date, none of our attempts to reach Mr. Solis and obtain his signature have been successful.

Being warned that willful false statements and the like are punishable by fine or imprisonment or both (18 U.S.C. §1001), and may jeopardize the validity of the application or any patent issuing thereon, all statements made herein of my own knowledge are true, and all statements made on information and belief are believed to be true.

Respectfully submitted,

Bradley K. Groff

Dear Mitch:

Enclosed are Declarations/Powers of Attorney and Assignments for the above-identified U.S. and PCT patent applications, which you worked with while at Facet. Copies of the applications are enclosed for your review prior to executing the documents.

Mitchell A. Solis
December 22, 2004
Page -2-

Please sign and date the Declarations/Powers of Attorney and Assignments where indicated and return them to me for filing with the Patent Office. Please note that the Assignments need to be notarized. If it is convenient, you can come by our office to have the signatures notarized. If this is not convenient, and you need to pay a notary, let me know and I will arrange for reimbursement. For your convenience, I have enclosed a stamped return envelope to return the signed documents to me.

Thanks in advance for your help on this. Please give me a call if you have any questions or concerns.

Very truly yours,

Bradley K. Groff
